## GCHQ's developing Cyber Defence Mission

Reduce vulnerability

Reduce harm

Enable prosperity

# The Cyber Defence Mission

## Support national situational awareness

- Supporting UK partners, to build a national level picture of the most significant and strategic threats against the UK

## Support international partners

- provide international partners (both 2<sup>nd</sup> and 3<sup>rd</sup> party) with intelligence that will help them build an appropriate national level picture of the most significant and strategic threats

We collect around 100,000,000 malware events per day
